

MONTGOMERY COUNTY **NEW SEPTIC SYSTEM** CHECKLIST
IT IS THE APPLICANT/OWNER'S RESPONSIBILITY TO DETERMINE IF THEY QUALIFY FOR AN EXEMPTION
* INCOMPLETE APPLICATIONS AND SUBMITTALS WILL BE REJECTED*

ALL DOCUMENTS MUST BE PRINTED 8 ½ x 11, SINGLE SIDED, ON WHITE PAPER

Important: Permit information, including the address, cannot be changed once a permit is generated. To update the information, a new permit must be purchased.

Completed “Development Permit Application”

- Important: Any non-structure work (e.g., grading, clearing, fill, disturbed area, etc.) must be listed in the “Detailed Description” section, and a non-structure fee is required for it to be covered by the permit.

Completed “Guidelines for Permitting” Form (if applicable)

Disclaimer (for all systems, notarized)

Septic Disclaimer (for all conventional systems, **must** be notarized and signed by owner – POA does not cover)

Affidavit to the Public for Aerobic Systems: (owner's signature only – power of attorney does not cover)

- Signed by property owner, notarized.
- Filed at the Montgomery County Clerk's office (by owner or applicant).

Legal Description of Property:

- a. Subdivision name, section, block, and lot (recorded plat)
- b. OR Written metes and bounds description or survey – no larger than letter size paper

Floor plans for all residential and commercial structures connected to the septic system:

- Show all bedrooms, restrooms and square footage of structure.
- Signed by property owner.

Letter on Utility District Letterhead (date within the past year)

- Must explicitly state water and sewer will be provided to the specific address (*letters stating only “capacity” will be rejected.*).
- If water and sewer have separate providers, two letters are required.
- If using a neighboring well, a notarized permission letter from the well owner is required.
- If within 2,075 ft of Lake Conroe, an SJRA permit is required as proof of sewer (*Call SJRA if unsure.*).

Completed “Stormwater Management Program Compliance Certification” Form

- The Stormwater Maintenance Declaration (if applicable) is filed at the County Clerk's office, provide the document # on the form.

Precinct 4 Culvert Verification Form or Culvert Inspection Receipt (if applicable).

Drainage Signoff (if applicable) - Required from the Montgomery County Engineering Department for projects involving:

- More than 15,000 sq. ft. of disturbed area or 500 cubic yards of fill or excavation
- 3' or higher retaining wall
- More than one proposed/existing driveway total (*commercial*)
- May be required for other scopes of work

Non-Emergency 911 Letter: Visit www.mc911.org (select addressing) to request a new address or verify an existing one. A permit issued with the wrong legal/address will need to be re-permitted. Once a permit is generated, information cannot be changed (including any portion of the address).

For property located in the jurisdiction of a city, other documentation may be required.

Power of Attorney:

- For signature of permit application and disclaimer **only**, notarized.
- Must be an original.

Two Year Initial Maintenance Contract for Aerobic Systems: (owner's signature only – POA does not cover)

- Signed by property owner.

Map from Conroe to the property. Directions drawn, written, or printed from computer.

3 sets of Soil Analysis:

- 1 original and 2 copies (*a copy will be returned once the approval process is complete*)
- Must be by a Texas licensed site evaluator that is registered in Montgomery County.

3 sets of Septic System Design:

- 1 original and 2 copies (*a copy will be returned once the approval process is complete*)
- Must show entire property. Cropped or zoomed-in plans are not acceptable.
- Must clearly show all lot boundaries, the exact location of proposed structure, and all existing/proposed structures, septic (with location of spray/drip field), well/water line and disturbed area (non-structure work being done).
- Must include distance markers from structures to floodplain boundary. If septic tanks are located within the floodplain, the required documentation includes buoyancy calculations, strapdown design, and variance letter.

This list is only for septic information. Please see Non-Structure or Structure checklist if you are applying for either of those permits with your septic system.

By signing this form, the applicant and property owner confirm they will be equally responsible for all information provided and for complying with all county regulations. The signer of the application is presumed to be an agent who has authority to bind the property owner. Construction must begin within 180 days of the permit date. Once a permit has been generated, information cannot be changed. To change information, a new permit must be purchased. Notice of Approval (NOA) will not be issued until a final inspection/approval of the septic system is given by the Montgomery County Environmental Department.

All Permitting fees are non-refundable, no exceptions.
